

**BIRD NUMBERS** is published by the **AVIAN DEMOGRAPHY UNIT (ADU)**, Department of Statistical Sciences, University of Cape Town, Rondebosch 7701, South Africa. It is distributed free of charge to ADU project participants.

The ADU is a research unit of the University of Cape Town and enjoys the partnership of BirdLife South Africa.

The mission of the Avian Demography Unit is to contribute to the understanding of bird populations and their dynamics, and thus provide input into bird conservation. We achieve this through mass-participation projects, long-term monitoring, innovative statistical modelling and population-level interpretation of results. The emphasis is on the curation, analysis, publication and dissemination of data.

**EDITOR:** James A. Harrison

**EDITORIAL COORDINATOR:** Sue Kuyper

**DIGITAL GRAPHICS EDITING:** René Navarro

**TECHNICAL EDITING AND DTP:** Marja Wren-Sargent & Felicia Stoch

**PRINTING:** University Document Management Services

**ILLUSTRATIONS:** *Front cover:* Yellowspotted Nicator by Penny Meakin and *line art on p. 47:* Secretarybird by J. Rooke, both from *The atlas of southern African Birds*, 1997, published by BirdLife South Africa, Johannesburg.
